Our Mission & Vision

Quality Service

A notable tag that makes us unique is our inevitable quality and service rendered to our patrons. We abide the proverb "As you sow, so you reap", hence at any cause we never compromise in providing quality service to our customers. This act has helped us in creating an everlasting bond between the company and its patrons.

Customer Focus

High focus is provided to all our customers without any differences – irrespective of their treatment packages. Being transparent & loyal to customers is our top priority.

Employee Satisfaction

At DENOC, we seamlessly thrive towards keeping our employees happy and comfortable. Providing adequate training and exposure in the industry has ensured a successful and promising career growth for our employees. We join here as a family that it becomes so difficult to part ways.

OUR TRIPLE 'A' PROCEDURE FOR HEARING LOSS

ANALYSE

It is the first step in our clinical procedure where a complete hearing assessment will be carried over on the patient. As a result of the analysis, a structured and detailed report will be compiled highlighting the critical scenarios.

AIM

Our hearing professional will have a direct interaction with the patients and based on the clinical reports, medical records and convenience of patients a consolidated AIM for the treatment will be proposed.

APPROACH

Our approach is our strength. We follow unique methodologies to address our AIMS. As a standard practice our treatment plans are approached with strategic planning and quantified results.

Our Services

Hearing Analysis with
Advanced Testing Equipments

ANALYSIS & TESTING

PTA, OAE, Impedance, VEMP, ECOCHG

AUDITORY BRAIN STEM RESPONSE

SPEECH AUDIOMETRY

SPECIAL TEST (TDT, SISI)

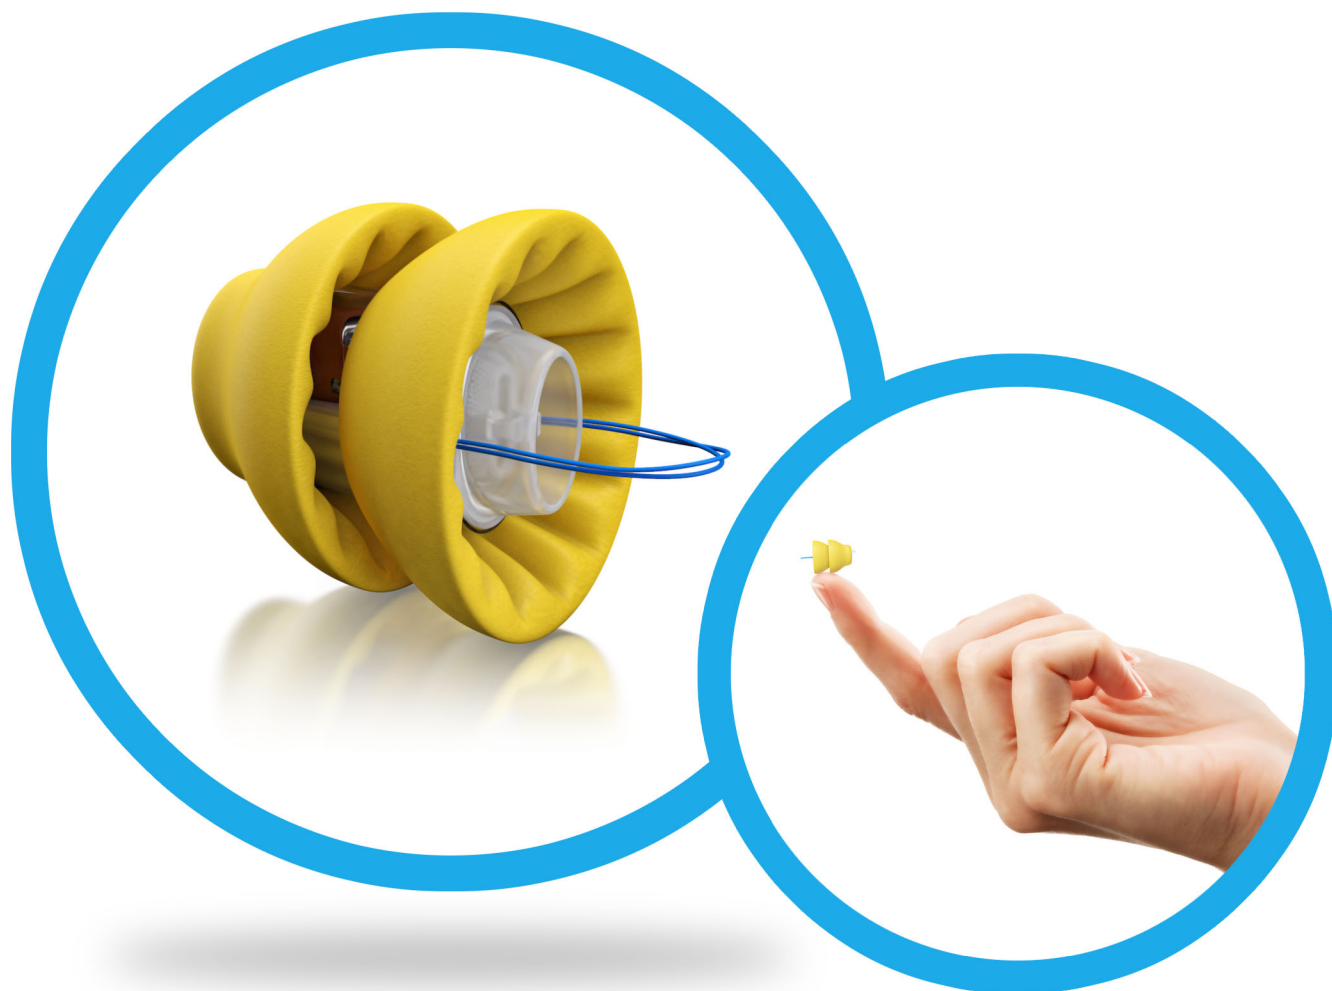

TINNITUS RETRAINING THERAPY

HEARING AID DISPENSING & SERVICE

Our Products

Natural Sound Made Simple

Noise Reduction

An adaptive feature to minimize artifacts that can occur when unwanted noises combine in the ear canal with direct sound.

Binaural Directionality

In a noisy listening situation, Binaural Directionality makes sure you can still understand every word of the conversation.

Connectivity

Use the wireless accessories to stream phone calls, audio from TV & increase volume with a click.

Smart App

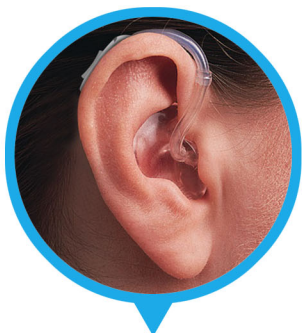

It will enable us to discreetly fine-tune our hearing aids to our unique taste. The App works with iPhone, iPad, iPod & selected android devices.

Hearing Loss is More Noticable Than a Hearing Aid
